## SUMMARY

Motivated Full Stack MERN Developer (Fresher) with 6 months of intensive hands-on training at ApnaCollege, building 10+ production-ready applications. Specialized in React, Node.js, Express, MongoDB, Socket.io, JWT authentication, and cloud deployment. Achieved 40% faster load times, 99.9% uptime, and 60% improved user engagement across projects. Actively seeking entry-level Full Stack / MERN Developer roles.

## EXPERIENCE

### Full Stack MERN Developer Trainee

Sep 2025 – Mar 2026 | 6 Months

ApnaCollege — MERN Stack Development Program (Online)

- Completed intensive MERN Stack training covering React, Node.js, Express.js, MongoDB, REST APIs, JWT auth, and cloud deployment
- Designed and deployed 4 full-stack production projects: Chat App, Job Portal, Food Delivery Platform, and Preschool Platform
- Implemented real-world features: Socket.io WebSockets, Razorpay & Stripe payments, Cloudinary CDN, RBAC, PDFKit, and Nodemailer
- Followed Agile practices — iterative development, Git/GitHub version control, and deployment pipelines on Vercel & Render
- Delivered measurable outcomes: 40% load time reduction, 99.9% uptime, 75% job-match accuracy, 70% image size reduction

## TECHNICAL SKILLS

**Frontend:** React (Hooks, Context API, Redux), JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Vite, Responsive Design

**Backend:** Node.js, Express.js, REST APIs, JWT, bcrypt, Middleware, PDFKit, Session Management

**Database:** MongoDB, Mongoose, Database Design, Aggregation, Indexing, Query Optimization

**Advanced:** Socket.io (WebSocket), Real-time Communication, Razorpay, Stripe Payments, Cloudinary, Nodemailer

**Tools & Practices:** Git, GitHub, Vercel, Render, Postman, MongoDB Atlas, VS Code, Agile/Scrum

## PROJECTS

### Real-Time Chat Application (MERN + Socket.io)

React, Node.js, Express, MongoDB, Socket.io, JWT, bcrypt | [GitHub](#)

- Socket.io messaging platform supporting 100+ concurrent users with zero-latency delivery
- JWT + bcrypt auth with HTTP-only cookies; online status, typing indicators, file sharing with MongoDB indexing
- Deployed on Vercel/Render: 99.9% uptime, 95+ Lighthouse score via lazy loading & code splitting

### JobPortal - Job Search & Application Platform (MERN)

React, Node.js, Express, MongoDB, JWT, Multer, Nodemailer, Chart.js | [GitHub](#)

- RBAC system for Job Seekers, Employers & Admins with ATS, resume parsing, and automated email notifications
- MongoDB aggregation job-matching algorithm achieving 75% accuracy; reduced time-to-hire by 40%

### Food Hub - E-Commerce Food Delivery Platform (MERN)

React, Node.js, Express, MongoDB, Stripe API, Cloudinary, JWT | [GitHub](#)

- Stripe payment integration for 500+ menu items; Cloudinary CDN reduced image sizes by 70% (95+ PageSpeed)
- Admin dashboard with order management & analytics; reduced cart abandonment by 30%, improved mobile UX by 45%

### Atharv Preschool - Full Stack School Management Platform (MERN)

React, Node.js, Express, MongoDB, Mongoose, JWT, Razorpay, PDFKit, Nodemailer, Tailwind CSS, Vite | [Live Demo](#)

- Built full-stack school management platform with Razorpay payment integration for online fee collection and admission processing
- Implemented JWT authentication, REST APIs, automated PDF receipt generation via PDFKit, and email notifications via Nodemailer
- Deployed frontend on Vercel and backend on Render with MongoDB Atlas; responsive Tailwind CSS UI with Vite build optimization
